

GENUINE PRINTRONIX GOLD SERIES RIBBONS

OUTSTANDING RIBBONS TAKEN TO A NEW DIMENSION

Twenty-five years ago, responding to the need to serve “mission-critical” applications, Printronix invented the line matrix printer. Printronix also built a solid reputation for its Genuine Printronix line matrix ribbons, known for their consistent quality and performance. Printronix has expanded their ribbon offering with a ribbon that further enhances line matrix printer performance.

CUTTING EDGE PRINTER TECHNOLOGY AND CUTTING EDGE RIBBON TECHNOLOGY: A WINNING COMBINATION!

The Genuine Printronix Gold Series ribbons are specifically designed for the Printronix line matrix family of printers. The Gold Series ribbons, with their increased character life and dual bar code/text printing capabilities, provide the greatest printing capacity available for Printronix line matrix printers.

WHY ARE THE GOLD SERIES RIBBONS SUPERIOR?

Highest Printing Capacity Available:

Nearly double the life of previously offered ribbons. Significantly reduces ribbon changes and increases productivity.

Single Ink Formulation Provides Optimal Images For Both Text And Bar Code Printing

Eliminates need to purchase and inventory two separate ribbon types.

Patented Ribbon Design

For the dual Hammerbank P5220 and P5224 models.

Solid Flanges On Spool

Reduces ribbon contact during changes, improves ribbon tracking, improves print quality.

Consistent Quality And Performance

Assures consistency ribbon-to-ribbon, box-to-box.

Reduced Printer Wear And Maintenance

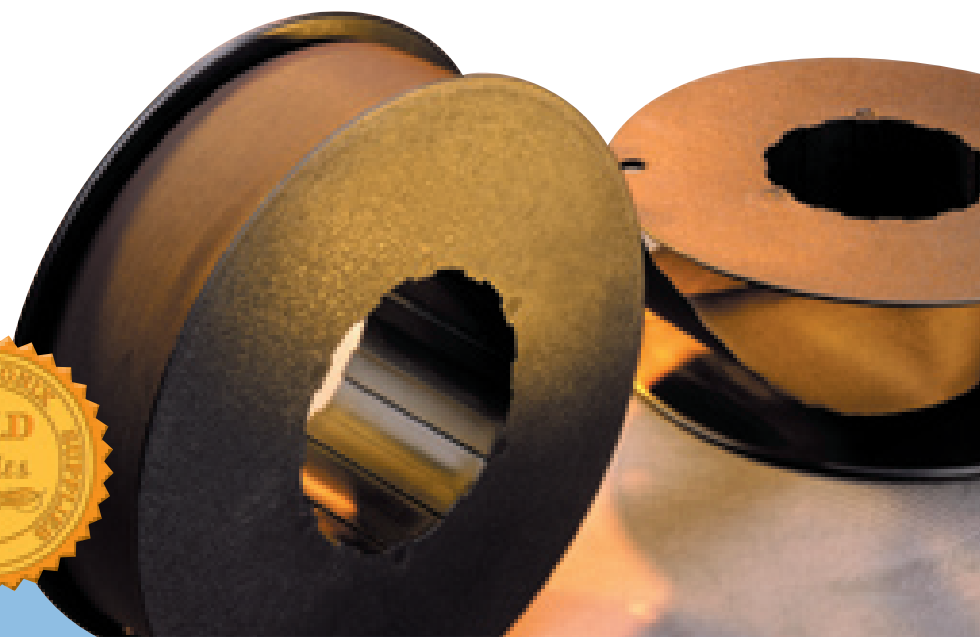

Significantly reduces operator intervention and increases up-time.

Designed And Manufactured By Printronix

Optimal fabric design and ink chemistry for the Printronix print mechanism.

Printronix Guarantee

Every Genuine Printronix Ribbon is unconditionally guaranteed to meet or exceed the requirements of the most demanding applications. If these needs are not met, ribbons are replaced without any questions asked.

GENUINE PRINTRONIX GOLD SERIES RIBBONS

APPLICATIONS

Text and report printing
Bar code printing
Optical Character Recognition (OCR) printing

INK COLOR

Black

DRYING CHARACTERISTICS

All printed images are dry to the touch as they emerge from the printer
Images will not run, streak or smear

RIBBON FABRIC

Optimized for the Printronix print mechanism
Woven nylon with fused edges – eliminates ribbon fraying and build-up of fiber debris in the print station

REVERSING MECHANISM

Designed with a metalized stitching that optimizes the reliability of the ribbon reversing function on your Printronix printer

RIBBON SPOOL

Solid spools for enhanced ribbon tracking and print quality
Easy to mount spools

PACKAGING

Each Genuine Printronix Ribbon is individually wrapped, which minimizes evaporation and degradation of the ink or ribbon fabric

CLEAN HANDS FEATURE

For dual Hammerbank P5220 and P5224 only

RIBBON PART NUMBERS

| PART NUMBER | YIELD | APPLICATIONS |
|--------------------------------|---|--|
| Gold Series 30 172293-001 | 30 million characters 3400 shipping labels (AIAG-style) | Specifically made for all Printronix P5000-P5220S printers (for P5220/P5224, use 175220-001), Gold Series ribbons also provide outstanding performance in all previous Printronix line matrix printers (including P300, P600, P3000, P4280, P6000 and P9000) |
| Gold Series 50 175006-001 | 50 million characters 4800 shipping labels (AIAG-style) | Specifically made for all Printronix P5000-P5220S printers (for P5220/P5224, use 175220-001), Gold Series ribbons also provide outstanding performance in all previous Printronix line matrix printers (including P300, P600, P3000, P4280, P6000 and P9000) |
| Gold Series 90 179006-001 | 90 million characters 7400 shipping labels (AIAG-style) | Made expressly to provide the highest print capacity available for P5000-P5220S floor cabinet model line matrix printers (for P5220/P5224, use 175220-001) |
| Gold Series 2000 175220-001 | 60 million characters 5100 shipping labels (AIAG-style) | Made exclusively for the Printronix P5220/P5224 printer, unique patented design |
